

The Indiana No Call List is not only fair to the homeowner, it is also fair to the telemarketer. They do not waste my time on calls that I do not want. If we limit the parameters of the law, they will find endless loopholes. Before the law, I was receiving up to 12 calls a night and more on the week ends. Sometimes I had to turn off the phone in order to get some peace in the evening. I do not look forward to going through that again!!! The law is fair. Do Not revamp Indiana's law.
